

VICTOR DANIEL ORTIZ GARCIA

Jr. Software Engineer | IT Support Engineer

victorortiz.vg@hotmail.com | [+52 221 112 4385](tel:+522211124385) | [LinkedIn](#) | [GitHub](#) | Puebla, México

Full-Stack Software Engineer experienced in end-to-end web development and data processing pipeline design. Specialized in scalable API architecture and modern web technologies. Demonstrated capability to work independently with global cross-functional teams, using AI-driven strategies to solve complex technical challenges and ship high-performance code.

WORK EXPERIENCE

Freelance Full-Stack Developer | *Médecins Sans Frontières (MSF)*

August 2025 – April 2026

- **Led the end-to-end development** of a web platform dedicated to donation management and corporate partnerships.
- **Designed and implemented a RESTful API** featuring 150+ endpoints, ensuring high-level security and performance for critical donor data.
- **Engineered responsive front-end interfaces** using JavaScript and Bootstrap, significantly improving user experience (UX) and navigation flows.
- **Managed MySQL databases** and deployed scalable solutions directly to production environments.
- **Key Achievement:** Automated administrative workflows, significantly reducing manual effort for the finance team.

Software Development Intern (Automotive Division) | T-Systems México

January 2024 – April 2024

- **Developed complex PL/SQL scripts** to extract and structure operational data for fleet maintenance reporting under the Volkswagen project.
- **Automated ticket generation and service tracking** for fleet users using optimized database queries.
- **Identified and resolved data inconsistencies** across enterprise environments using Oracle SQL Developer.
- **Authored comprehensive technical documentation** following international automotive software standards.

Software Developer Intern | *Mulliert S.A. de C.V.*

May 2022 – August 2022

- **Built a warehouse management and inventory control system** from the ground up using C# and .NET Framework.
- **Implemented automated feature sets** for generating PDF reports and material requisitions.

- **Designed and optimized relational database schemas** in SQL Server to ensure fast query response times and data integrity.

SKILLS

Programming Languages

C#

JavaScript

PHP

Python

PL/SQL

HTML5 & CSS3

Web & Frameworks

Blazor

Next.js

.NET

REST APIs

Bootstrap

Databases

MySQL

MS SQL Server

Oracle PL/SQL

IT Support & Systems

Hardware Diagnostics

L1/L2 Technical Support

Ticket Management

Network Maintenance

Tools & Infrastructure

Git & GitHub

GitHub Pages

Visual Studio Code

Soft Skills

Autonomous Project Management

Technical Problem Solving

Asynchronous Communication

LANGUAGES

- **Spanish:** Native
- **English:** Intermediate (Proficient in technical reading and professional written communication)

EDUCATION

Bachelor of Science in Software Engineering

Universidad Tecnológica de Puebla (UTP) | Graduated 2024
